

Mini Grant Activities Overview 2023

SCC Early Childhood Student Group

The SCC Student Group kicked off the Week of the Young Child by setting up a hall display with various items promoting the event. We provided a flyer with activities to do for the WOYC as well as sidewalk chalk with ideas for use. Copies of the *Learning Begins at Birth* publication were made available to ECED students as well as the college community. In all ECED classes F2F and WB we held book drawings for children's books (funds were not used to purchase books).

On April 5th we hosted a professional workshop for ECED students entitled “Trauma, the Brain and the Care We Can Provide.” Fourteen ECED students attended the 1.5 hour workshop presented by Dawn Wright.

Students favorably evaluated this workshop and did suggest that we offer more professional workshops to students. Some students attended to complete an assignment in a practicum course, whereas other attended for professional enrichment.

On April 20th a Teacher Tote Make & Take Workshop was held for ECED students. We had 18 students in attendance. Grant funds were used to purchase workshop supplies and door prizes.

Door Prize Table & Winners

**All participants received one of the action/movement cubes.

Thank you for your support of our projects!

SCC Early Childhood Student Group
