

## Southeast Community College Student Group

The SCC NAEYC Student Group has had a very busy spring! In celebration of the Week Of The Young Child student members participated in the Early Childhood Celebration by assisting at the Southeast Community College booth and offering assistance throughout the event. The group also held a Make & Take Workshop emphasizing file folder games which was heavily attended by ECED students. In early May the group hosted a booth at the SCC Child Development Center Carnival which was open to child care families and the general student population. The group has selected volunteering at the USA National Special Olympic games to be held in Lincoln

during July as their community service project. The group is looking forward to more fund-raising opportunities as they prepare to attend the national conference in November.
